PROFILE

I am a full stack developer with extensive fintech experience.

Having vast experience in both frontend and backend development, I design and build web apps on modern TS stack.

Fluent in English and Japanese, I secure partnerships and efficiently develop products and integrations with international teams.

EXPERIENCE – 3 YEARS

Pontem Network – Full Stack Engineer

MAR 2024 – PRESENT

- Communicated with partners to secure successful integrations.
- Enhanced the 'Activity' feature of the crypto wallet, outperforming the main competitor.
- Developed unique integrations, efficiently creating solutions from scratch to accommodate browser extension limitations.

Krak.AI – Full Stack Engineer

APR 2023 – MAR 2024

- Cooperated with design team to improve UI/UX.
- Implemented cryptocurrency trading algorithms.
- Built new features that engaged 90% of active users.
- Boosted revenue 15% by integrating new payment options.

Mascon Web Studio – Full Stack Engineer

SEP 2021 – FEB 2023

- Developed bug fixes for newly implemented software, enhancing system stability and reducing user-reported issues by 50%.
- Maintained over 3 projects, ensuring their timely updates.
